A look into the
Past of Josiah Badiali
(Age 35)

(Age 35)

(Age 19)

This was when I didn't know about creation of matter or matter

EMERGENCY

W-what the hell am I looking at?

I remember this! But this memory is from nearly 30 years ago!

This was when I didn't know about cohesion of water on the skin

You see, the surface tension of the water helps it cling onto your skin, so in the shower it'll run off of your fingertips

Heh heh, I guess I thought I was a super hero or something

Author's Note: I just realized how you draw a tie right here

Huh? Now It's a memory of me driving, I must be about 20 here

My car back then was an '08 Civic. Great car, but I'm surprised I didn't die in it considering how I drove.

I'm a much safer driver now!

In fact, I'm a super-safe driver.

Well...

..my wife doesn't think so

I can hear her now, "you're going too fast!"

Anyway, what's this memory of? And why am I seeing it?

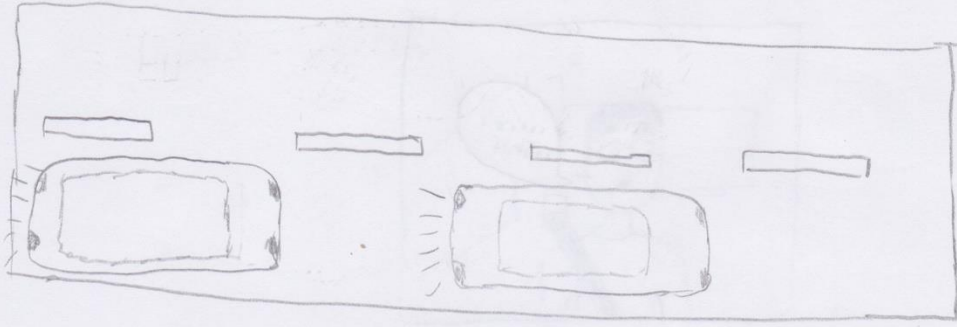

Son of a Bitch!
How slow does
this guy go?!

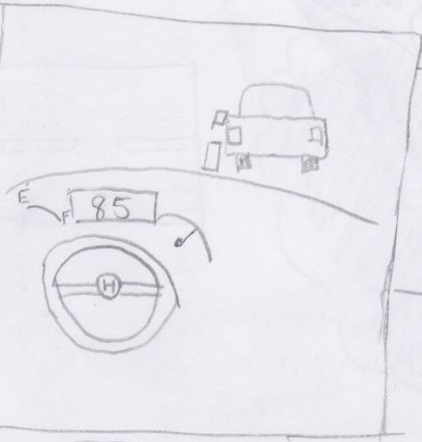

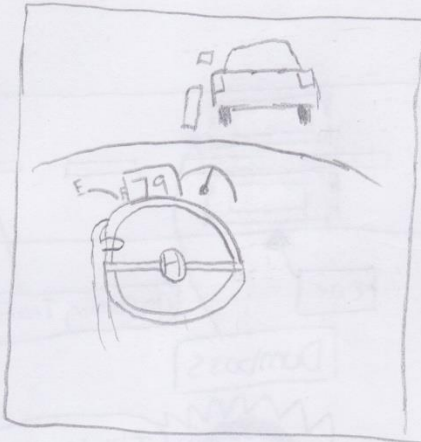

Probably
going to
have to
make this
comic
Rated R!

oh... Yeah I forgot
my math gets very
foul while I'm
behind the wheel

Ah, I'm
riding someone's
ass on a
one-lane
country road...
Classic me

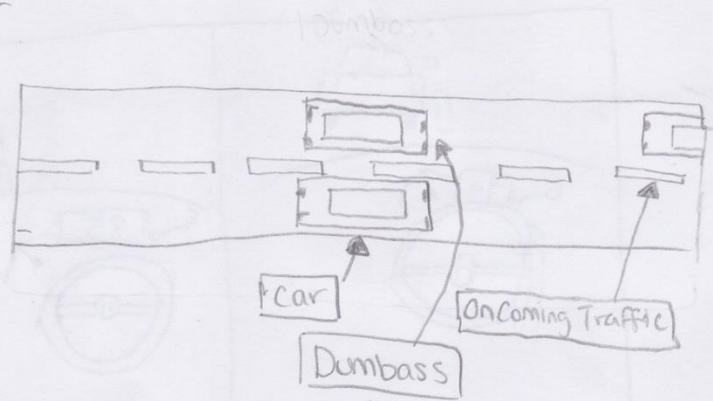

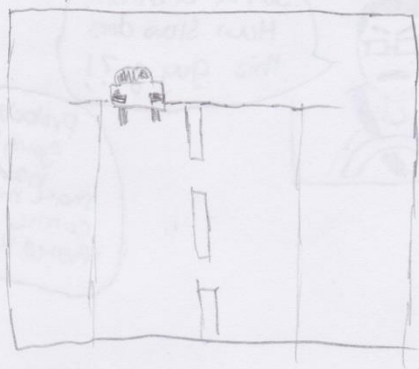

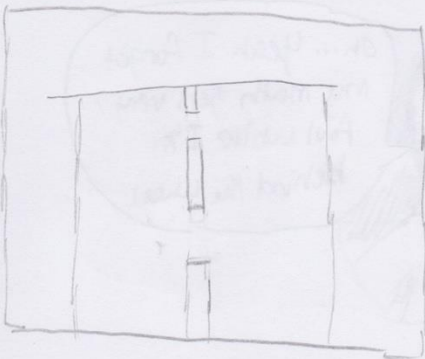

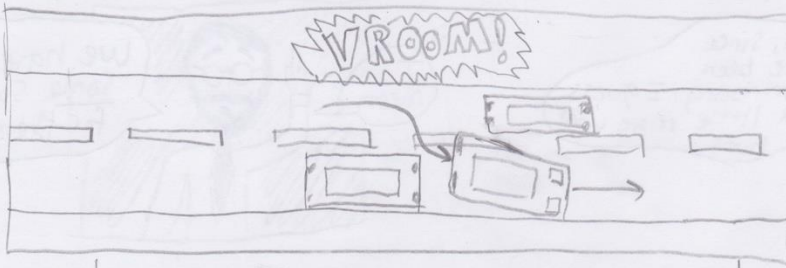

Doing the
Good '01
Cut off,
Never falls

Believe it or not,
this IS legal,
but kinda stupid...

...Here's why

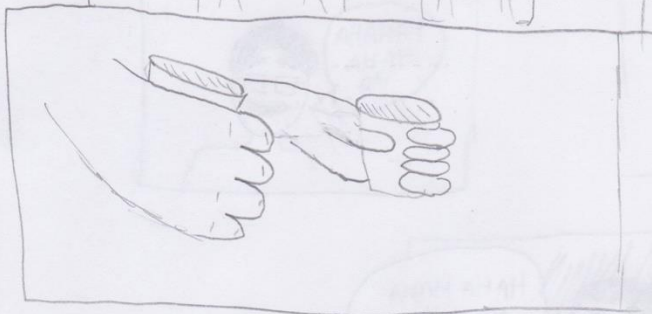

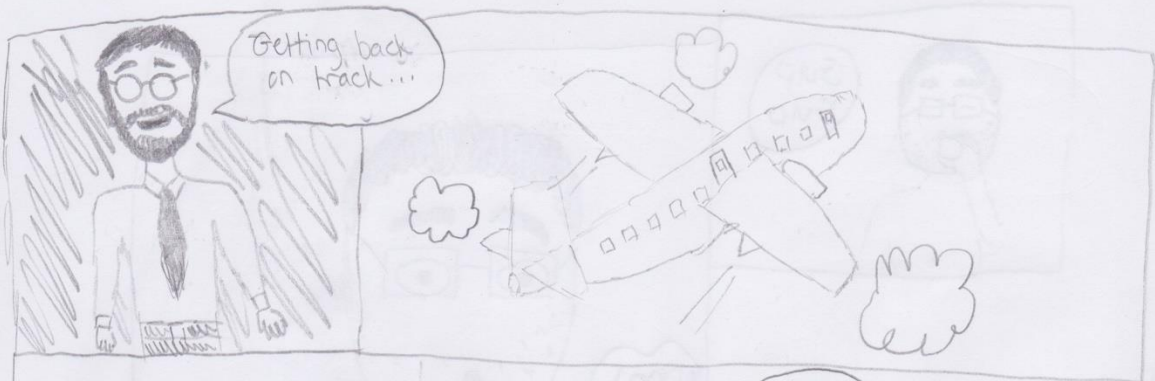

Not a
Scratch
was had that
day

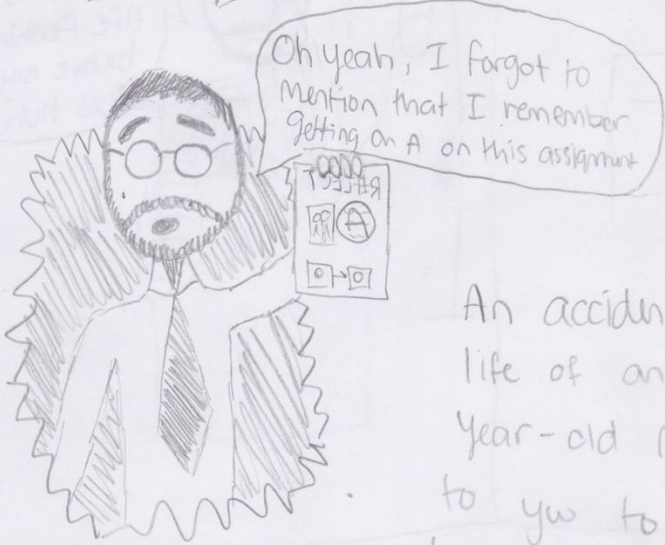

The End
